You have to leave your room at 10am but your departure time is late evening. You are in town for a one-day conference and have some spare time to explore. Your trip stop-over allows you a quick visit downtown. You're loaded with shopping bags but can't miss to drop in that special store.

These are only a few situations everybody experienced at least one time, when you had to drag your bags around for hours, spoiling your touristic experience. **BagAPP** addresses this common issue offering a network of **bags deposits, located in the city centre and close to public transport stops**, where to store your luggage to visit hands-free.

The service features more than **20 deposits** in **London, Milan, Rome, Berlin** and **Prague**. Many more destinations will follow! **Prices start from 3£**.

With BagAPP you search, choose and reserve the most convenient bags storage service, right where and when needed. The useful function **'Bring me there'** also shows you the way to reach the deposit via Google Maps.
